

AIR,
e House,

AN ACROSTIC.

COMPOSED BY MRS. JENIE McGUIRE, FOR HER FRIEND, MRS. HATTIE B. GRINNELL.

Hail! Friend of my golden day,
An acrostic in your hands I lay
Telling of a lady so kind and dear
That she to her friend seem doubly near.
It is a sweet thought of the past
Ever prompts me to write, joys too sweet to last.

Beautiful music, love and flowers,
Ever attended those happy days of ours.
After having so long been apart,
Lo! a new life each of us begun.
Love in our hearts for another has sprung.

Gentle and kind has been your life,
Rescuing others from all strife.
Into each heart some balm to pour,
Nothing but wrongs would you ignore.
Now, as your days are fast declining,
Ever remember each cloud has a silver lining.
Let no thorn be found in your closing day,
Let all be as bright as the roses of May.

Several of the lithographic men were here Sunday, guests of Albert Moorman. A hundred men are expected to be at work on the quarry by June 1st, so I have been told.

Every house keeper this time of the year makes nice fluffy-puffy light roll-rice steam buns—except one—every house keeper, I mean except me, and I am neighbor to Mrs. Pacey.

The distillery where Moorman's old mill stand, had mile from here, is in operation. I do not know the names of the parties who are running it, but I do know I am sorry that it is here.

Mr. Ed Goodnight and Mr. Ernest Rabbage have a cordial invitation to attend the recital. They know about it.

A SMALL SPOT MAY BE CANCER.

MOST VIOLENT CASES HAVE APPEARED AT FIRST AS MERE PIMPLES.

operation—the only treatment which the doctors know of a cure for cancer is a radical one. It is a deadly poison in the blood, and an operation, plaster, or other external treatment have no effect. The cure must come from within—the last vestige of poison must be eradicated.

Mr. Wm. Walpole, of Washington, D. C., says: "A little black spot the size of a pea came upon my left eye, gradually growing larger, from which I saw at intervals rain in all directions. I became greatly alarmed and consulted a good doctor, who pronounced it Cancer, and advised that it be cut out, but this I could not consent to. I read in my local paper of a cure effected by S. S. S., and decided to try it. It acted like a charm. Cancer became at first irritated, and then discharging very freely. The gradually grew less and the discoloration disappeared, leaving a small scab which soon dropped off, and now only a healthy little scar remains where what threatened to destroy my life once held full sway. Positively the only cure for Cancer is Swift's Specific—S. S. S. FOR THE BLOOD."

—because it is the only remedy which can go deep enough to reach the root of the disease and remove it out of the system permanently. A surgical operation does not reach the blood—the root seat of the disease—so the root cannot be cut away. Instead of S. S. S., nothing can take the place of S. S. S. cure any case of Cancer, Eczema, Scabies, Herpes, Contagious Blood Poison, Ulcers, Sores, or any other form of blood disease. Valuable books on Cancer and Blood Diseases will be mailed free to any address by Swift Specific Company, Atlanta, Georgia.

at Clarksville after May 1st, where I hope their lives may be spent mentally, peacefully and happily.

I understand that many of my old pupils in the county who it is well known is favorable, attend my recital on Saturday night, April 1. In a letter from one of a sweet, charming allusion to the happy hours spent in the study of music with me, and of the full of recitals we held. I shall hope to see many parties from the adjacent towns. Come early. The services will not exceed ten hours, thus giving plenty of time to get back before it is very late. The curtain will rise at exactly 7:30.

Archibald McDonald has been employed to run the Clifton Mills. Mr. McDonald is a first-class miller and this already popular mill should now receive increased patronage.

There are many roads in this county that should be discontinued as county roads and perhaps in a few instances new roads should be opened up. But the great object at present should be fewer and better roads.

Not only should every church in this county have a Sunday-school this year, but Sunday-schools should be organized at several points in sections remote from churches. Let our county and district Sunday-school officials see to this matter.

Mrs. Bill Harrison and children went to Caneyville, Saturday, where they will join Mr. Harrison, who has employment at that place.

Dr. Dempster is taking the lead in spring whitewashing and his example should be followed by all who love health and the beautiful.

Foremost with W. C. Moorman are health and beauty. His latest step in the latter direction is to fence the lot between his and Dewees' stores. Already has he sowed it in grass, and beautified as he will have in time, it will add greatly to the loveliness of our little village.

Mr. Willie Owen has returned from an absence of three weeks in southern Kentucky, Tennessee and eastern Kentucky. Cute and full of prettiness reasoning are some of the sayings of the tots. Little Betty Moorman, calling an envelope a "letter sack" shows a child's readiness to apply knowledge. A good many times lately she has heard of people "breaking up" with their messes. The tordling buds on the early gooseberry bushes caught her eye a few days ago, and she said, "Mamma, see how the gooseberry bushes are breaking out! Bright are they who can hear like the little ones and wise are they who learn of the babes in their infancy."

The days of sack cloth and ashes are drawing to a close and Easter will soon be upon us. It is to be hoped nature will be as beautiful as the new dress and come out in greater freshness and gorgeousness than she has done for some time past. We will welcome the change.

Many of "our rascals" will have returned from the express the return of "Jan McLevin" on "Certain traits of Scotch Character." The praise of the Scotch for learning was certainly very dramatically dealt with and his close portrayal of "Bonnie Brier Bush" must have been highly entertaining. This is one of the disadvantages of "country life," we miss all the good things.

The bright sun will leave for East and as soon as possible, during the past month the eyes of the wheels would have been concentrated upon this family. Their arrival in New York was heralded over the country with the rapidity that the most popular books now selling in Louisville are: Adventures of Francis, Aylwin, Afterwards, Celebrity, Days Work, David Harum, I and Thou and the Other One, Old Chester Tain, Penelope's Progress and When Knighthood was in Flower.
